Board Approved: August 18, 2025

The Board recognizes that effective learning and teaching takes place in a safe, secure, and welcoming environment and that safe schools contribute to improved attendance, increased learner achievement, and community support. The practice of safety shall be considered a facet of the instructional programming of the District schools by incorporating concepts of safety appropriately geared to learners at different grade levels.

The Superintendent shall be responsible for developing and maintaining a comprehensive safety program/plan for the District, taking into account applicable laws, regulations, Board policies, and best practices. **While the comprehensive safety program need not be a single consolidated document**, it should include:

7. Procedures and training to implement employee and work-place safety per Board policy EB.

8. Training and support for learners that aims to relieve the fear, embarrassment, and peer pressure associated with reporting behavior that may indicate impending violence or other safety problems.

9. Procedures for safe and confidential reporting of security and safety concerns at each school building.

10. Procedures for regular assessments by school security/safety professionals and law enforcement officers to evaluate the security needs of each school building and to provide recommendations for improvements if necessary. See also ECA.

11. Procedures for periodic assessments by school climate professionals to determine whether learners feel safe and to provide recommendations for improvements in school climate at each district building.
12. Procedures for managing the behavior of children, including, proper training and protocols relative to restraint and seclusions consistent with RSA 126-U.
13. Training programs for staff and learners in safety precautions and procedures related to fire prevention, natural disaster response, accident prevention, public health, traffic, bicycle and pedestrian safety, environmental hazards, civil defense, classroom and occupational safety, and special hazards associated with athletics and other extracurricular activities.
14. District and building level procedures to assure timely safe schools reporting to law enforcement, the N.H. Department of Education and to the School Board as required under RSA 193-D:4.

Whenever the Superintendent delegates tasks relating to the above to other District personnel, that delegation should be recorded in a manner readily accessible to others in the instance of the Superintendent's absence or departure.

Each Principal shall be responsible for the supervision and implementation of components of the safety programs in his/her school, inclusive of school buses, school grounds (including playgrounds), during authorized school activities (such as field trips), within school building(s) (including classrooms and laboratories), off school grounds during school sanctioned activities (including, but not limited to, work-based learning and internships), and in the use of online resources.
